CAREER OBJECTIVE

Frontend Developer with hands-on experience in React and React Native. Built production applications at Arab National Bank and developed AI-powered portfolio. Passionate about creating innovative user experiences and leveraging modern technologies to solve real-world problems.

EDUCATION

Bachelor of Science in Software Engineering

King Fahd University of Petroleum and Minerals | Dhahran, Eastern Province | August 2019 - December 2024

PROFESSIONAL EXPERIENCE

Freelance Developer

Custom Excel-to-PDF Reporting System | Aug 2025 - Oct 2025 · 3 mos

- Developed Python-based automation system with Arabic PDF generation and RTL text support, creating an intuitive Tkinter interface for non-technical users
- Reduced generation time 75% and eliminated formatting errors for delivery and inventory forms

Frontend Developer (Summer Trainee)

Arab National Bank (ANB) | Jul 2024 - Aug 2024 · 2 mos

- Developed business-critical applications using React Native and React.js, creating analytical dashboards for performance metrics visualization
- Improved system efficiency through technical optimization, resulting in 30% faster processing times

PROJECTS

Portfolio Website

AI-Powered Professional Platform | React + Google Gemini | Portfolio

- Developed interactive portfolio with AI chatbot integration using Google Gemini API and serverless architecture on Vercel

KFUPM Smart Bus Application

Digital Transportation Infrastructure | Flutter & Firebase

- Led team of 6 developers developing tracking system with real-time GPS and data analytics
- Managed complete project lifecycle and created comprehensive technical documentation (SRS, SDD) following industry-standard methodologies

TECHNICAL SKILLS

- **Frontend:** React, React Native, JavaScript, Flutter, HTML/CSS, Tailwind CSS
- **Backend & APIs:** Firebase, REST APIs, Node.js basics, Vercel serverless functions
- **AI Integration:** Google Gemini API, Anthropic Claude API, AI chatbot development
- **Tools & Technologies:** Git/GitHub, VS Code, Figma, Vercel, Python, Dart
- **Other:** Responsive design, Cross-platform development, Agile/SDLC
